

KING BAG PACKAGE

Annual Turnover exceed 45,000,000 USD

Hunan KINGBAG Packing Co.,Ltd.

www.kbpackage.com

About Us

KB Packaging was established in 2017. Has full experience in manufacturing flexible packaging bags , coffee packaging bags, food packaging bags, laminated kraft paper bags , stand up pouches , flat bottom pouches ,spouted pouches film rolls etc . They meet the highest quality requirements as stipulated in SGS ISO. We supply flexible packaging bag all over the globe to a wide range of companies world wide . According to customers requirements, we always accept customized specifications and printing contents of products, provide one-stop package solutions to save your time and cost.

New Technology

HP Indigo 20000 Press

1. Super wide printing face.

It supports 762mm printing width, and max image width could be 736mm, and the printing length is no limited.

2. Wide-ranging printing media

The thickness of printing media could be 10-250um. Materials could be plastic film, paper, Aluminium foil and biodegradable material, even heat sensitive material is ok.

HP Indigo 20000 Digital Press

30 inch wide breakthrough digital web printing solution for flexible packaging

HP Indigo 20000 Press

3. Perfect printing quality

HP Indigo 20000 use **One short Color** printing technology, which could match the color perfectly. And it uses **individual electronic inks**, that's are safe and environmental. The equipment could offer up to **seven color** groups, and it has white ink and off-line ink matching system (IMS), which can match the PANTONE color exceed **97%** and meet customer's strict requirement on the color. Besides, the equipment use PAMTONE simulation technology, makes the **image resolution** reach to **1219dpi**, and the printing effect is clear and realistic.

HP Indigo 20000 Press

4. Quick and flexible application

HP Indigo 20000 does not need any preparation, and it could print all kinds of orders according to customer's demand at any time, decrease waste farthest. So the variability is very large, you can easily achieve variable data printing, including text, graphics, two-dimensional code and security information.

Time and cost Saving

One Bag, One Code

2. What can One bag, one code do?

Society

- Strengthen product quality and safety supervision
- Convenient query product source

Enterprises

- Against counterfeiting
- Ensure product source safety
- Flexible allocation of promotional activities
- Direct user management
- Open more sales channels
- Reduce sales promotion, ADs cost, Get more marketing data
- Enhance corporate brand image

Customers

- Identify products authenticity easily.
- Traceability of production distribution information
- Easy online purchase by scanning code
- Evaluate feedback at any time

Why Choose us?

1. Automatic and Complete Equipments

We have many famous and high level equipments,

- Three high speed Film Blowing Machine
- Many Printing Presses, especially HP indigo20000
- Fourteen Compound Machine
- Nearly one hundred Bag Making Machine
- Vacuum Aluminized Machine
- Product Inspection Machine

Equipments Exhibition

**Shan Xi Bei Ren high speed night color
Printing Press**

**Ningbo Xinda Ten color group Gravure
Printing Press**

Equipments Exhibition

As the leading brand in laminating machine industry, Nordmeccanic Laminating machine is the most high-end and environmental equipment in the world. They have three main advantage fro our packaging products:

- 1.No solvent redidual, environmental & safety
- 2Automatic operation, more accurate
- 3.Paster speed, more efficient.

Laboratory Testing Equipments

实验室检验设备展示

Laboratory Testing equipment

气象色谱仪

Laboratory Testing equipment

气象色谱仪对气体物质或可以在一定温度下转化为气体的物质进行检测分析，能准确的检测出残留于薄膜上的溶剂分量，确保产品符合国际、国内食品工业安全标准。

锤式冲击试验机

Pendulum impact testing machine

- 空气动力学摆臂
- 新型测试包络“完全断裂”、“脆性”、“部分断裂”、“不断裂”及“横向断裂”
- 自动或手动调整利刃
- 空气阻力与摩擦自动校准
- 试样编号的自动或手动更新
- 根据摆锤的高度与重量实时能量精度显示

恒温干燥箱

Constant temperature drying box

恒温干燥箱供科研单位、专业院校、工矿企业等单位的实验室，化验室作各种试验，以及生产领域：如干燥、固化、烘焙、焙烘、灭菌等应用。此恒温干燥箱也是食品厂、饮用水厂DQS、HACCP认证的必备检验设备。

电子天平

electronic balance

采用电磁力平衡被称物体重力，其特点是称量准确可靠、显示快速清晰并且具有自动检测系统、简便的自动校准装置以及超载保护等装置。

电子拉力试验机

Intelligent electronic tensile testing machine

拉力试验机可对各种塑料薄膜材料进行力学性能测试和分析研究，可检测材料的抗拉强度、延伸率、弹性模量等参数，有着强大的数据累加系统，全部测试数据所需参数、曲线、包络、力曲线动态显示在数显屏幕上，联接电脑实现全自动控制并打印标准测试报告。

热封梯度仪

Gradient heat seal tester

在一次测试塑料薄膜基材、软包薄膜合膜、无纺布及其它热封复合膜在一定热封温度、热封压力和五种热封温度下的热封参数，热封材料的熔点、粘弹性、流动性及厚度不同，会表现出不同的热封性能，其封口工艺参数可能差别很大，使用该方法可准确、高速度获得最佳的热封性能参数。

小型压力蒸汽灭菌器

Small type pressure steam sterilizer

压力蒸汽灭菌器具有造型新颖美观、结构合理、功能齐全、加热迅速、灭菌彻底等优点，适用于医疗、科研、食品、军事及对手术器械、敷料、玻璃器皿、橡胶制品、药品、药液、培养基等物品进行灭菌。

STF-C摩擦系数仪

STF-C Coefficient of friction Tester STF-C

适用于测量塑料薄膜和薄片、橡胶、纸张、纸板、编织物、织物纤维、输送带、木材、涂层等材料滑动时的动、静摩擦系数。通过测量材料的滑爽性，可以控制调节材料生产工艺指标，满足产品使用要求。

采用高精度力值传感器，达到国内最高测量精度：0.001N或相应试验数据，内置微电脑统计分析功能，试验结果更精确。

3. Fast Delivery

- All production lines 24 hours open one day
- ERP system saves a lot paper work and bring more efficiency
- Various professional bag making machines
- Indigo 20000 printing press suitable for sample orders, saving the mould and time cost

4.High Quality Ensurance

- We get the “ISO 9001” international quality management system certification and QS (the national industrial production license)
- The rare films (PE, PET,BOPP,Al foil, CPP and etc), printing ink, glue and other materials we use in the production are all famous brand with high quality in China.
- Each process has professional QA people to inspect the quality.
- Laboratory Testing Equipments

The End
